Subject: Dico Follow Up

Hi Kristen,

We are getting a tech follow up discussion together for tomorrow. It also looks like we may be able to get a time set tomorrow to have a discussion with the owner's rep. It will be City and school district, a small group.

We want to have the time be as productive as possible, but we recognize we can't negotiate on behalf of another entity or tell a story that may be ill timed. To that end, it would help if we are able to reference some of the current discussion with EPA regarding possible funding sources and building demo in the discussion tomorrow. I really think that it could help the owner find a way to come to some compromise points/willingness to pay some costs, settle, etc.

What are your thoughts?
